

## PROPSHAFT SECTION ASSEMBLY INSTRUCTIONS

**Separated Propshaft Sections**  
 Separated Propshaft sections need to be matched up correctly before installation to ensure correct balancing.

### Match

Each section should be matched up to the corresponding number / arrow.  
 Eg, 1234 -> <- 1234

Match

### Align

Align each corresponding number / arrow and insert sections together, ensuring the rubber gaiters are correctly located in the groove.

Align

**NB:** Failure to align the arrows and numbers correctly could cause serious vibrations and invalidate the warranty.
