

Replacemnt of T2293 with T1783

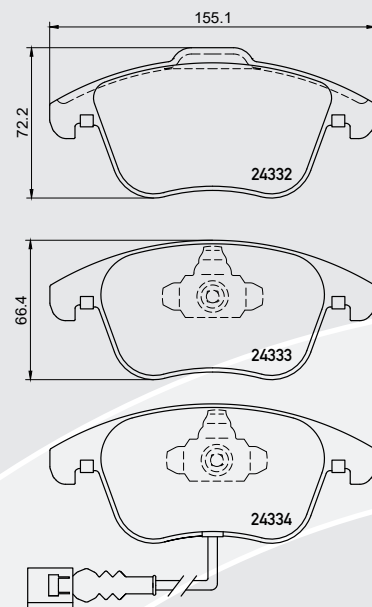

Pagid is now able to harmonize the references T2293 and T1783. It was proven that T1783 can also cover the applications of T2293. Therefore Pagid will replace T2293 with T1783.

The differences between T2293 and T1783 are the wrap around shim in the sliding areas of the pads. All other dimensions are equal or almost equal and have no effect on the function of the brake pads. Therefore there will be no difficulties during installation and operation.

T2293

T1783

As usual, existing stock of T2293 can be sold out without any problems.
