

Assortment, cable protection

According to ECE R100, cables carrying high voltage in electrically driven vehicles (hybrid and electric cars) must have an orange outer cover. In order to protect these cables, the range has been put together carefully with the following content:

- corrugated tube, double shell, nominal width 11, polyamide 6, 5 m
- corrugated tube, closed, nominal width 12, polyamide 6, 5 m
- rolling fabric tape, nominal width 19, polyester, 5 m
- knitted tube, pierce-resistant, nominal width 20, polyester, 5 m
- Cable ties, 200 x 2.5 mm, polyamide 6.6, 100 units.

Vehicle for vehicles with electric motor
Equipment: for vehicles with hybrid drive
