

Inspector Tab

Self-diagnosis Equipment

Inspector – the diagnostic and maintenance specialist for Asian cars and commercial vehicles. The Inspector is a multi-brand diagnostic device specially developed for Asian vehicle models to provide effective support for demanding diagnosis procedures as well as for all maintenance and repair work. Our decades of experience in the Asian vehicle sector guarantee the highest standards of quality and safety.

- Comprehensive software for all Asian brands (comparable with OEM)
- Best coverage of models and functions for Asian vehicles
- Automatic system search function saves complicated and time-consuming identification of the vehicles
- Can be used with a PC or laptop
