

LED Shine Spot

Hand lamp

99910163*

The LED Shine Spot hand lamp impresses with its compact design and strong luminance with a beam angle of 120°. The lamp is equipped with fold-out hooks and magnets on the bottom of the housing to ensure flexible usage and the lighting levels you need. The hand lamp can also be tilted through 180°. The built-in charging level indicator makes it easy to identify the charge level from a distance. The possible applications of the hand lamp can be extended thanks to our optional accessories from the LED Shine Spot series.
