

Headlamp

The robust and powerful headlight from Herth+Buss is ideal for everyday workshop operations. The flexible adjustable strip with anti-slip coating ensures that the lamp is positioned securely. The various light modes and additional features (Memory function, an in-

tegrated, switchable motion sensor, charge level display, adjustable tilt angle) offer the user a high level of flexibility for day-to-day workshop tasks and make the Herth+Buss' headlamp an indispensable assistant.

Input Voltage:	5 V	Connection type inlet:	USB-C
Rated Power:	5 W	Info:	without charger
Light Design:	LED		with USB cable
IP-Code:	IP65		with movement sensor
Battery:	with load status display Lithium Polymer Battery		
Battery capacity:	1500 mAh
