

## Replacement of MDB83023 with MDB83444

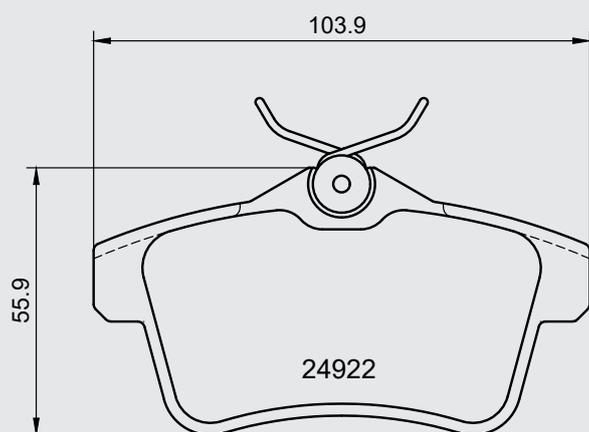

Mintex aims to streamline the designation of MDB83023 to MDB83444.

Given the identical outer dimensions of the brake pads we can ensure seamless assembly and operation.

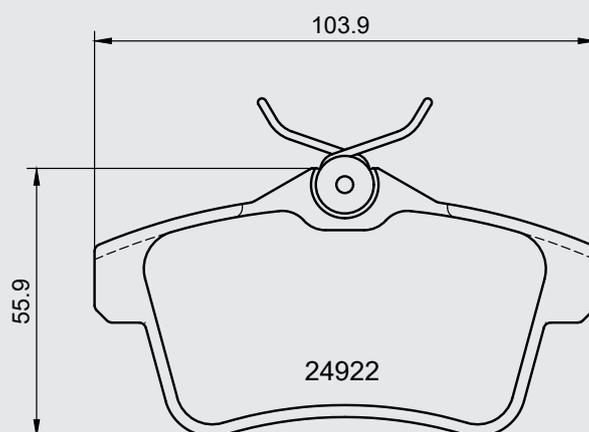

The difference between MDB83444 and MDB83023 is the MDB83444 thickness is slightly thinner.

This consolidation extends coverage to a broader range of vehicles under a singular reference, namely MDB83444 which is already covering applications of both part numbers.

**MDB83023**

**MDB83444**

The current inventory of MDB83023 can be effortlessly marketed and sold without any complications.
