Clutch Cover Assembly/Shipping Clips

WARNING

The clutch cover assembly is supplied with assembly/shipping clips due to the high clamp loads involved. These shipping clips hold the pressure plate in the release position, allowing you to bolt the clutch assembly to the flywheel without damaging the threads in the flywheel. The shipping clips (refer to picture below) are usually red in colour for easy identification.

PLEASE NOTE

IF THESE ASSEMBLY/SHIPPING CLIPS ARE NOT REMOVED AFTER THE COVER ASSEMBLY HAS BEEN INSTALLED ON THE FLYWHEEL IT MAY PREVENT THE CLUTCH FROM ENGAGING AND/OR SLIPPING PREMATURELY.
