STARTER MOTORS & ALTERNATORS

IMPORTANT PLEASE READ THE INFORMATION BELOW BEFORE RETURNING A NEW OR WARRANTY UNIT. FAILURE TO FOLLOW THE PROCEDURES BELOW MAY RESULT IN ADDITIONAL CHARGES BEING APPLIED

All these units are supplied encased in a sealed plastic bag, with the plug being protected with a foam cover.

When returning new or warranty items the unit **must be sealed in a plastic bag** before being packed into the box. Not sealing the unit allows the shredding material in the box to enter into the unit, this makes the unit unfit for re-sale without being fully stripped and cleaned. This unit comes with a welded pulley which has to be removed to allow the unit to be cleaned, this is a costly and time consuming process. Please note you will be liable for charges for the cleaning of units incorrectly packaged for return.
