

ACDelco

RADIATOR FAST FLUSH

P/N - 19420396

Blocked cooling system passages will reduce cooling system efficiency and possibly cause engine over-heating. ACDelco's Radiator Fast Flush helps dissolve and loosen rust and scale from inside the cooling system to aid in removal during the flushing process.

FEATURES & BENEFITS

- Effectively aid in the removal of rust and scale build-up inside the radiator and engine cooling passages
- A clean cooling system will result in improved engine efficiency and heater output
- Works best when used with a cooling system flush machine
- Meets & exceeds OEM service requirements

APPLICATIONS

Ensure the coolant level is below the overflow level prior to adding fluid. Pour the entire container of Radiator Fast Flush into the radiator. Do not add product to the overflow tank. Run engine at fast idle for 10 minutes. Open the block and radiator petcocks to drain entire system. Flush the system until clean water runs from all outlets. Close all petcocks. Refill system.

DO NOT RUN COLD WATER INTO HOT ENGINE!!

PACKAGING

350 ml PVC bottle with child proof cap

HEALTH & SAFETY
