

EGR VALVE AND CATALYST CLEANER FOR HYBRID VEHICLES

Reference : CO 1084

Item name	EGR VALVE AND CATALYST CLEANER FOR HYBRID VEHICLES
EAN code	3701555311470
Intro	Suitable for EGR valves and catalytic converters on gasoline and diesel hybrid engines.
Text	This high-performance descaler has been specially developed for exhaust system maintenance on hybrid gasoline and diesel engines. Efficiently decalaminates the lambda sensor, catalytic converter, turbocharger and EGR valve, and prevents harmful re-fouling resulting from irregular, short-term operation of combustion engines in hybrid vehicles, particularly during cold-start phases. Restores original combustion engine performance. Ensures reliable operation of Lambda sensor, catalytic converter, turbocharger and EGR valve. Prevents or eliminates OBD faults. Contributes to compliance with anti-pollution standards, making it easier to pass roadworthiness tests.
Product highlight	Ideal before technical inspection
Specifications	Specifications: - treats up to 80 liters with a 300ml dose - eliminates deposits - reduces consumption
Warranty period	No warranty (consumable)
Vehicle type	LV
Capacity (ml)	300.00 ml

Capacity (l) 0.30 l

Tariff code Tariff Normal (TN)

Warranty Procedure NO

Consumable type Cleaner

CLAS EQUIPEMENTS
