| <b>Intro</b>              | This lubricant is a blend of highly pure base oils with appropriate additives, formulated for the lubrication of rotary vane vacuum pumps or rotary pumps where the use of a lubricant is required. It is used for the lubrication of vacuum pumps and compressed air equipment where lubrication conditions are more critical. |
| <b>Warranty period</b>    | No warranty (consumable)                                                                                                                                                                                                                                                                                                        |
| <b>Capacity (ml)</b>      | 1,000.00 ml                                                                                                                                                                                                                                                                                                                     |
| <b>Capacity (l)</b>       | 1.00 l                                                                                                                                                                                                                                                                                                                          |
