

Replacement of T2374 with T2372

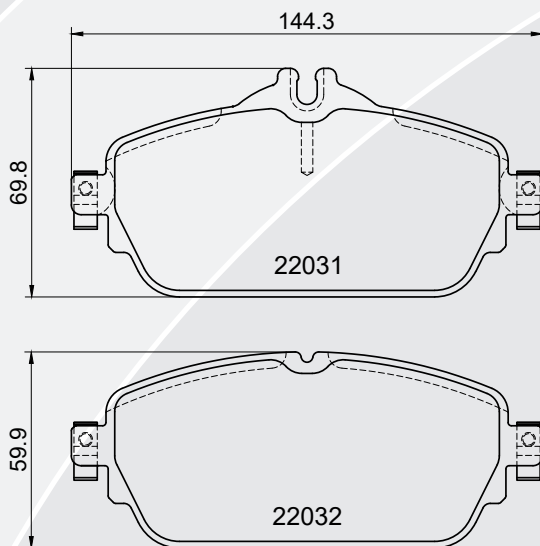

Pagid aims to streamline the designation from T2374 to T2372.

Since Mercedes also harmonised their versions of the brake pads Pagid is following the same approach.

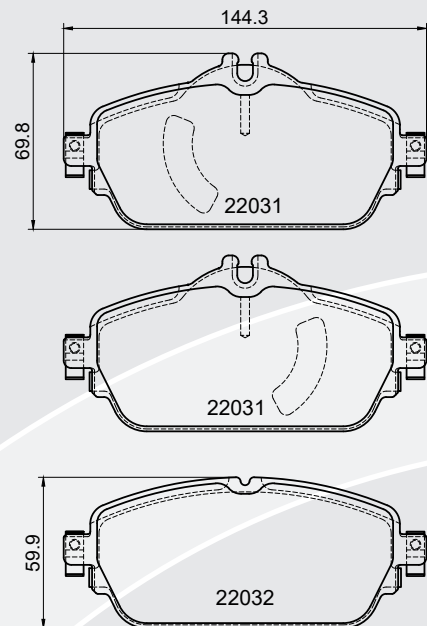

Given the identical outer dimensions of the brake pads we can ensure seamless assembly and operation. The parts are differing by a cut out in the shim for T2372 while the adhesive foil for the outer pads will disappear.

This consolidation extends coverage to a broader range of vehicles under a singular reference, namely T2372 which align more closely to the OE specifications and therefore is able to cover applications of both part numbers.
