

Replacement of T2744 with T1322

Pagid aims to streamline the designation of T2744 to T1322.

Given the identical outer dimensions of the brake pads we can ensure seamless assembly and operation. The difference between T1322 and T2744 is the T1322 thickness is slightly thinner and the springs will be withdrawn.

This consolidation extends coverage to a broader range of vehicles under a singular reference, namely T1322 which is already covering applications of both part numbers.

The current inventory of T2744 can be effortlessly marketed and sold without any complications.
