

Replacement of T1844 with T2712

Pagid aims to streamline the designation of T1844 to T2712.

Given the identical outer dimensions of the brake pads we can ensure seamless assembly and operation.

The difference between T2712 and T1844 is the T2712 thickness is slightly thinner.

This consolidation extends coverage to a broader range of vehicles under a singular reference, namely T2712 which is already covering applications of both part numbers.

The current inventory of T1844 can be effortlessly marketed and sold without any complications.
