

PRODUCT SHEET

ARTICLE NUMBER: GAT5225

DESCRIPTION: 1.8L & 2.0L Petrol Chain Camshaft Engine Setting and Locking Tool Kit

INTRODUCTION

GAT5225 engine setting and locking timing tool kit is used for 1.8L & 2.0L camshaft chain driven petrol engines found on Audi, Seat, Skoda and Volkswagen models from 2008.

The tools included in **GAT5225** are designed for safe removal and installation of the camshaft adjuster control valves, to retain the chain tensioner and lock the camshaft in position to allow the removal and replacement of the timing chain and covers all generations of EA888 engines.

The universal handle **GAT4939** can be installed on the crankshaft pulley holding tool **GAT5124** and secured with a retaining screw for easy use and long reach access. Use dial gauge **GAT3054-10** in combination with positioning tool **GAT4519** for accurate timing measurement. **GAT5224** can retain the crankshaft sprocket before removal of the central bolt.

IMPORTANT: The camshaft locking tool must not be used to counter hold when releasing or tightening any engine components.
