

Assortment, hose clamps

This multi-area hose clamp is particularly suited to applications with high mechanical stress. Thanks to constant continuous develop-

ment, it is still the benchmark for modern clamp design. Probably the most striking feature is the asymmetrical housing.

Quality/ Grade: Typ W2
DIN standards: DIN 3017-1 (hose clamps with worm gear drive)
Material: Chrome steel

Bolt Head: Hexagon
Info: with holder with worm drive
