

ANYLOX

Assortment, hose connectors

The ANYLOX assortment consists of manifolds available with 2(=I), 3(=Y) or 4(=X) connection types, allowing you to create different manifolds as you wish. The total of 200 individual parts includes, among other things, the plug-in inserts for the hose sizes 3, 4, 5, 6 mm, which are suitable for the various manifolds. With the help of the system

connector and the O-rings, there are far more than 100 different combinations available, depending on your needs. Also included is a plug-in insert for corrugated pipes with an inner diameter of 4.5 mm, which is designed for the windscreen washer system and can be combined with our RepPipe system.

Shape:

Y-Form
X-Form
I-Form

Chemical Properties:

Oil resistant
Solvent resistant
Fuel-Resistant
