

Replacement of MDB83382 with MDB83778

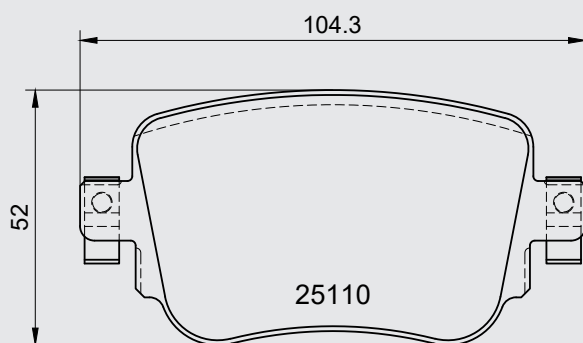

Mintex aims to streamline the designation of MDB83382 to MDB83778.

Given the identical outer dimensions of the brake pads we can ensure seamless assembly and operation.

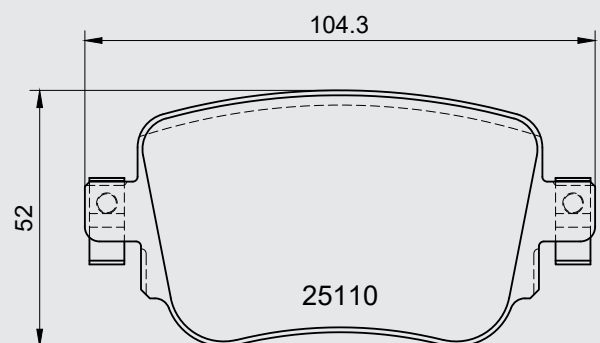

The difference between MDB83778 and MDB83382 is the MDB83778 screws type and design.

This harmonisation goes along with a replacement that was also implemented in the OES.

MDB83382

MDB83778

The current inventory of MDB83382 can be effortlessly marketed and sold without any complications.
