

## Replacement of MDB3822 by MDB265I

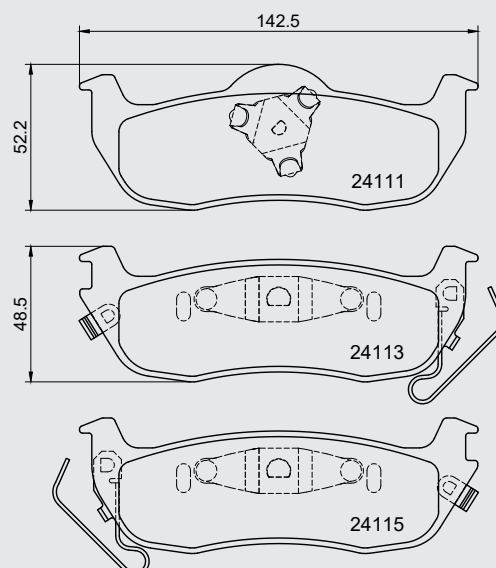

Mintex is now able to harmonize the references MDB3822 and MDB265I. It was proven that MDB265I can also cover the applications of MDB3822. Therefore Mintex will replace MDB3822 by MDB265I.

The difference between them is the thickness, for the future Mintex will offer only the thinner version, that is MDB265I. Therefore there will be no difficulties during installation and operation.

### MDB3822

### MDB265I

As usual, existing stock of MDB3822 can be sold out without any problems.
