This is a semi synthetic lubricant based on carefully selected highly refined base oils. This is a "long-drain" oil, which meets the highest requirements of the leading European manufacturers of heavy trucks. By its selected composition it guarantees the highest level of engine cleanliness. Engine oils according to these specifications are known as UHPD (Ultra High Performance Diesel).

## APPLICATIONS

This oil is used in modern supercharged diesel engines under all service conditions and in all seasons. The high concentration of active additives allows the longest oil drain intervals as prescribed by the manufacturers. Due to the high ash content, this oil is not suitable for gasoline engines and vehicles equipped with a particulate filter.

## FEATURES

Total engine protection: outstanding engine cleanliness and durability

Drain interval extension: very long oil drain interval

Cold start: very good fluidity at low temperature
