

MORE THAN 5X LONGER LIFE

IROX² INDUSTRY LEADING DEVELOPMENT

- Achieves higher durability, greater performance for highly loaded and downsized engines.
- IROX² bearings provide outstanding seizure and wear resistance, load capacity and conformability for the most critical engine operating conditions
- Features an enforced polymeric binder material with a highly effective synergistic filler composition
- Wide application from high performance sports car to heavy duty trucks
- More than 10 million bearings produced

ENGINE EXPERTISE
