

TECHNICAL BULLETIN

CCH070 Impulse Rings: Essential Installation Information.

The camshaft position rings supplied with this cylinder head are not pre-fitted to the camshafts. These **MUST** be installed in the correct position when in final assembly. The vehicle **WILL NOT** start without these being fitted.

Fitment note:
Make sure the
hole* is aligned
with the notch on
the camshaft

*Magnetic pick-up for the
camshaft sensors

Camshaft references C448 and C449 come pre-fitted
with position rings.
