

## DON 7740

### Main Vehicle Application

Bova	Iveco	Neoplan
DAF	Leyland	Renault Truck (RVI)
ERF	MAN	Scania
Ford	Mercedes	Volvo

### Brake Manufacturer/Type

S-Cam brake

### Friction Material Release

This aftermarket material has been specifically designed for s-cam foundation brakes.

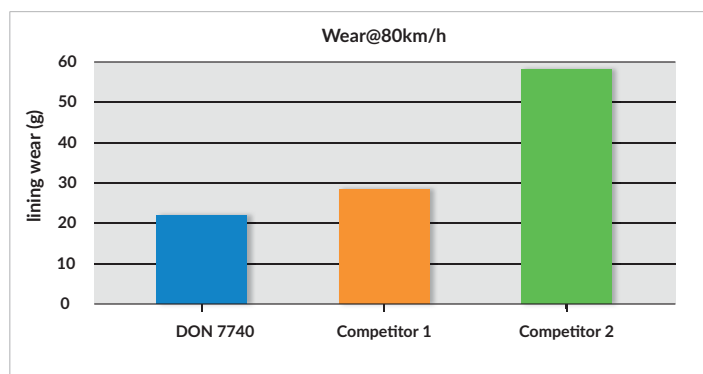

### Features and benefits

DON7740 is a fully moulded asbestos-free lining with a medium/high coefficient, developed for s-cam foundation brakes.

### General Description

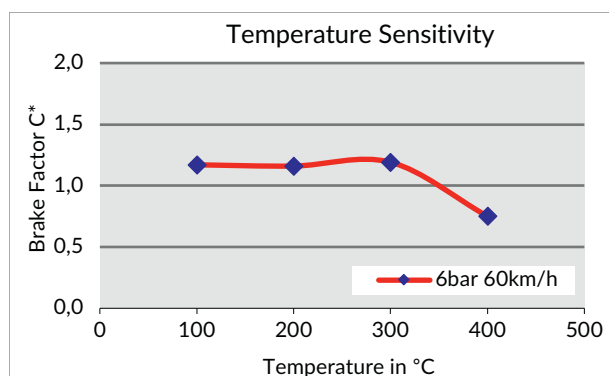

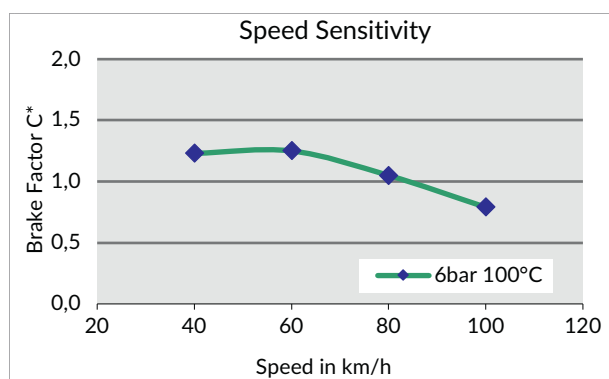

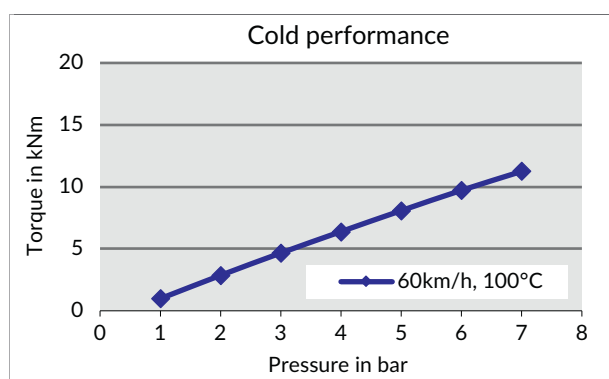

DON7740 is an Aftermarket material used primarily in truck and bus S-cam foundation brakes.

This material is considered one of the top performers in the budget class. The material has been rigorously tested and passes all requirements of the European ECE R-90 legislation. DON7740 exhibits a medium to high level of friction and has a good wear rate in comparison to other competitors.

### Friction Performance/Output

(tested on Mercedes/MAN S-Cam brake, 410x180 mm linings)
