Part of OEM Group:

IATF16949:2016 ensures world-class manufacturing standards.

ISO9001:2015 Accredited:

Guarantees a structured approach to quality management.

Block Exemption Regulations:

BGA parts allow garages to maintain warranties while offering OE quality.

OE Quality Standards:

Reliability and performance controlled by the OEM Group.

Rigorous QC:

OE parameters and tolerances are the minimum benchmarks for approval.

Enhanced Engineering:

Parts are re-engineered to fix known OE issues and improve durability.

UK-Based R&D Center:

Cutting-edge facility in UK dedicated to innovation and testing.

Technical Bulletins:

Clear, in-box instructions reduce errors and warranty claims.

Advanced Testing:

Bespoke simulations validate performance for millions of miles.
