

TSB-NI13

APPLICABLE TO KNI24525, KNI24535, KNI24542 CLUTCH KITS

Bolt quantity difference of supplied cover:

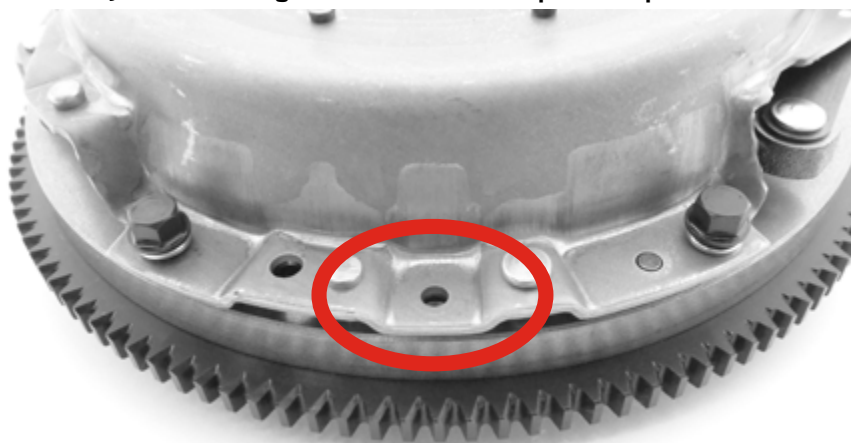

The following images show the difference between factory Nissan clutch cover fitment and clutch covers used in ACS clutch kits.

The factory clutch cover uses 9 pressure plate bolts where the cover supplied in ACS kit's will only require 6 bolts.

*Please be aware the different number of pressure plate bolts will not affect operation of the clutch in any way.

Flywheel showing 3 available holes for pressure plate bolts.

Highlighted is the un-used bolt hole.
