

Diesel Extreme Clean

JLM Diesel Extreme Clean is a very powerful additive that quickly and effectively cleans, restores and maintains the turbo, the fuel system, the exhaust system with diesel particulate filter (DPF) and related components.

During the thorough cleaning process not only is the entire turbo and the diesel particulate filter cleaned but the intake valves, EGR valve, injectors are treated also. JLM Diesel Extreme Clean dissolves blockages, remedies irregular running, rectifies the emission of exhaust gases, improves fuel consumption and lubricates all moving parts in the engine. As well as cleaning and lubricating, JLM Diesel Extreme Clean stabilizes the fuel in the tank and prevents the growth of algae.

First, the active components in JLM Diesel Extreme Clean thoroughly and effectively remove the soot deposits from the parts of the fuel system and the engine. After cleaning, the parts are lubricated and protected against oxidation and other deposits that could adversely affect engine performance.

JLM Diesel Extreme Clean also contains a cetane booster. The cetane booster ensures better fuel combustion. This makes the engine run more evenly and better.

Avoid unwanted visits to the workshop and high investigation and repair costs. Add one litre of JLM Diesel Extreme Clean to the tank every six thousand miles for maximum and lasting results.

JLM Diesel Extreme Clean combines the advantages of all individual diesel additives and can be used in all old and new cars with a diesel particulate filter.

Benefits

- Super Strong all-in-one Cleaner
- Detox complete Diesel Fuel System
- Clean Turbo & EGR valve
- Promote DPF Regeneration
- Cetane improver
- Restore engine power, improve emissions
- Better Fuel consumption

How to use:

Shake well before use. Use for all diesel engines (incl. common rail) with or without turbochargers running on low or normal sulphur level diesel fuel. Direction: Pour the contents of one bottle in the fuel tank before filling it with diesel fuel. After adding Diesel Extreme Clean, drive for at least 20/30 minutes preferably with elevated RPM. Try to repeat similar cycles a few times while driving on the treated diesel to achieve the maximum result. Dosage: One 1000 ml bottle treats 40 to 60 litres of diesel fuel. Do not overdose!

Product information

Art. Nr: J02360

Barcode: 8718274354836

HS code: 3811900000

Ufi Code: RMH6-20D0-W00Y-TEQV

Pack Size: 1 liter

Quantity in box: 6

Weight full box: 5.76 kg

Boiling point: => 100 °C

Flash point: > 62 °C

Colour: Amber / Brown

Odour: Characteristic
