

Fuel Injection System Cleaner Heavy Duty

JLM Diesel fuel injection system cleaner is a fuel additive which is specifically designed for heavy duty vehicles (incl. machinery and stationary engines). It effectively removes carbon deposits from injectors and restores the optimal injector spray pattern. Lubricates the fuel pump and injectors and prevents needles from seizing. Improves combustion using effective cleaning agents and a strong cetane improver.

Benefits

- Removes carbon deposits from injectors and restores optimal spray pattern
- Improves combustion and increases cetane number
- Lubricates the fuel pump and injectors and prevents needles from seizing
- Reduces corrosion and wear
- Reduces engine noise
- Lowers fuel consumption and maintenance costs
- Improves starting performance and eliminates knocking under partial loads
- Reduces emission of hazardous exhaust gases

Usage

For all HDV diesel engines with or without turbochargers running on low or normal sulphur level diesel fuels and biodiesel B7, B10 and B20.

Direction

Pour the fuel additive in the diesel fuel tank before filling it with fuel.

Dosage

One bottle of 1 liter treats 500 liters of diesel fuel.

Shake before use!
