PRODUCT SPECIFICATION

Description

Recommended for use in the latest PSA engine designs, including BlueHDI, Puretech and models using electronic stop/start technology.

Engine oil formulated and developed for the latest PSA petrol and diesel engines, including hybrids. The low viscosity promotes fuel efficiency in a range of driving conditions while allowing rapid circulation in stop/start operation, even when the engine is cold. MQGA 0W-30 has been designed for where engines require the below performance levels.

- Improved engine efficiency and fuel economy
- Outstanding flow rates even at cold temperatures
- Increased film strength at high temperatures
- Low volatility levels
- Superior thermal stability, improved engine cleanliness

Performance Levels

PSA B71 2312
ACEA C2

Physical Characteristics	
Viscosity at 100°C, cSt.	9.58
Viscosity at 40°C, cSt.	53.86
Viscosity Index	164
Density at 15.6°C	0.842
Flash Point (Closed), °C	180
TBN, mg/KOH/g	6.2
Pour Point, °C	-40
