Makes/ Models

Filter Type: Standard

Smart

Smart (1999- >)

Difficulty: Difficult
Time (Approx) 30 Mins

Cabin Filter Location

1. The cabin filter can be found behind grille at the front of the bonnet
2. Unclip/unscrew the front body panel/bonnet (Will need Allen key & screwdriver). The front grille needs to be removed first to access all of the screws which hold the bonnet panel
3. Use the car key to unlock and remove the ventilation grille on the passenger side of the vehicle
4. Unclip the cover to access the cabin filter.
5. From this you can access and remove the cabin filter
