PRODUCT SPECIFICATION

Description

Premium specification fully synthetic engine oil formulated to maximise performance and fuel economy for vehicles requiring superior, low viscosity lubrication in petrol and diesel engines.

Advanced additive technology provides long-term benefits including reduced wear on critical valve-train components. Low viscosity levels contribute to improved engine efficiency and fuel economy.

- Improved engine efficiency and fuel economy
- Low volatility levels
- Excellent cold starting characteristics to protect against engine wear and reduce engine noise
- Offers improved flow rates at low temperatures and increased film strength at high temperatures
- Improved engine cleanliness.
