## PRODUCT SPECIFICATION

### Description

**Fully synthetic engine oil designed for Ford's latest generation of fuel efficient petrol engines.**

MQE 5W-20 EcoBoost fully synthetic engine oil has been specifically formulated for use in Ford's latest fuel efficient petrol engines. Advanced additive technology provides long-term benefits including reduced wear on critical valve-train components and essential protection during start-up.

- Improved engine efficiency and fuel economy
- Low volatility levels
- Excellent cold starting characteristics to protect against engine wear and reduce engine noise
- Offers improved flow rates at low temperatures and increased film strength at high temperatures
- Improved engine cleanliness

### Applications:

Recommended for applications where manufacturers require the use of a 5W-20 oil that meets any of the performance standards outlined below.

### Performance Levels

Ford WSS-M2C948-B

API SP

ACEA C5

Physical Characteristics	
Viscosity at 100°C, cSt.	8.1
Viscosity at 40°C, cSt.	43.0
Viscosity Index	160
Density at 15.6°C	0.851
TBN, mg/KOH/g	7.9
Flash Point (Closed), °C	197
Pour Point, °C	-39
