## PRODUCT SPECIFICATION

### Description

**MQR 20W-50 Classic Motor Oil is a premium-quality, low-detergent multigrade lubricant designed specifically for classic engine applications.**

Formulated with minimal dispersant additives MQR 20W-50 is ideal for use in naturally aspirated four-stroke petrol and diesel engines.

#### Applications:

This motor oil is recommended for use in vintage, classic, and veteran cars, motorcycles, commercial vehicles, and agricultural tractors. It is particularly suited to engines with older designs and tolerances that are incompatible with modern, high-additive oils.

MQR 20W-50's low dispersant formulation allows solid contaminants to settle safely in the sump, making it especially beneficial for engines equipped with early filtration systems such as mesh gauzes or strainers.

Its multigrade properties ensure enhanced cold-start performance while maintaining reliable oil pressure during operation.

### Performance Levels

API CC / SF  
MIL-L-2104B

Physical Characteristics	
Kinematic Viscosity at 100°C, cSt.	16.9
Kinematic Viscosity at 40°C, cSt.	131.8
Viscosity Index	140
Flash Point (Closed), °C	210
Density at 15°C	0.876
Pour Point, °C	-35
Appearance	Amber liquid
CCS at -15°C (mPas)	9500 max
Base Number (mgKOH/g)	7.5
Zinc content, ppm	1200
