## PRODUCT SPECIFICATION

### Description

#### Specialised transmission fluid

ATF DX15 is an innovative automatic transmission fluid primarily designed for Mercedes-Benz 7-speed automatic gearboxes. This product boasts a lower viscosity compared to previous MB-approved fluids, enhancing fuel efficiency throughout the driveline. It also guarantees smooth and efficient gearshifts under various loads and operating conditions.

#### Applications:

Suggested for use in the most recent MB 7-speed automatic gearboxes, which includes the 722.9 7G-Tronic.

#### Benefits:

- Contributes to fuel efficiency
- Ensures positive and continuous frictional control
- Smooth vibration-free operation
- High level of thermal and oxidative stability
- Excellent shear stability characteristics that maintain system pressure
- Reduced fluid loss through due to low volatility

### Performance Levels

MB 236.15

NAG2FE

Note: This product is not compatible with previous MB specifications.

| Physical Characteristics |         |
|--------------------------|---------|
| Appearance               | Blue    |
| Viscosity @ 100°C, cSt.  | 4.3     |
| Viscosity @ 40°C, cSt.   | 17.0    |
| Density at 15.6°C        | 0.848   |
| Flash Point (Open), °C   | 180 min |
