

PRODUCT INFORMATION

FUEL PUMP FITTING TOOL

EASIER REPLACEMENT OF IN-TANK PUMPS

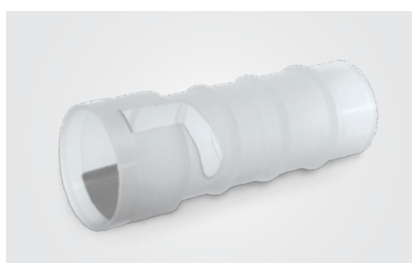

Vehicle	Product	Pierburg No.
Various BMW and VW models	Tool for fuel pumps	120000514004

In many modern vehicles, the actual fuel pump is part of the fuel delivery module, which, for the purpose of replacement, is located in the fuel tank with attachments such as the pressure regulator and fluid-level sensor.

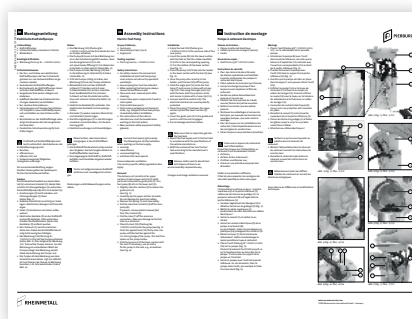

Motorservice offers a range of spare pumps, where only the fuel pump itself has to be replaced and not the complete fuel delivery module.

The fitting tool for the fuel pump (Pierburg No. 120000514004) makes replacement quick and easy.

The tool enables easier removal of the electric fuel pumps listed below from the fuel delivery module.

Pierburg No. 120000514004

Fuel pumps come with assembly instructions that clearly describe their replacement.

Disassembly is as easy as follows:
Position the tool, turn it and pull the fuel pump out of the bracket.

The tool spreads open the brackets holding the fuel pump in the fuel delivery module. This is particularly easy with fuel pumps with an angled outlet nozzle.

THE TOOL CAN BE USED FOR THE FOLLOWING FUEL PUMPS:

Pierburg No.	Suitable for	Model
7.07795.17.0	BMW	5er (E39)
7.07795.18.0	BMW	X5 (E53)
7.22013.61.0	BMW	M5 (E39)
7.22013.69.0	BMW	7er (E65 / 66 / 67)
7.28303.60.0	Volkswagen	Golf IV / V, Passat 1.9 / 2.0 TDI

Pierburg No.	Suitable for	Model
7.28303.70.0	Audi	A4
	BMW	520d, 525d, 530d
7.50138.01.0	BMW	X5 (E53)
7.50111.60.0	Volkswagen	Fox 1.4 TDI, Passat 1.9 / 2.0 TDI, Tiguan 2.0 TDI
