MATERIAL SPECIFICATION

DON 7100

Main Vehicle Application lveco

MAN

Bova DAF ERF Ford

Neoplan Leyland Mercedes

Renault Truck (RVI) Scania Volvo

Brake Manufacturer/Type

S-Cam brake

Friction Material Release

This aftermarket material has been specifically designed for s-cam foundation brakes.

Features and benefits

DON7100 is a fully moulded asbestos-free lining with a medium/high coefficient, developed for s-cam foundation brakes.

General Description

DON7100 is an Aftermarket material developed for truck and bus S-cam foundation brakes that has been utilised in the budget segment of the portfolio to provide a good performance to price ratio. This material was designed specifically for truck and bus applications and has undergone various tests to prove its capability. DON7100 exhibits a medium to high level of friction and is a material with good wear characteristics in its class.
