

ACDelco

ADBLUE[®] DIESEL EXHAUST FLUID

PRODUCT DESCRIPTION

ACDelco AdBlue[®] Diesel Exhaust Fluid (DEF) is a NO_x (Nitrous Oxide)-reducing treatment that has been developed for use in all diesel engines that are equipped with a Selective Catalytic Reduction (SCR) system. DEF is the primary ingredient used to help convert NO_x to harmless nitrogen and water vapour that is subsequently released safely into the atmosphere. ACDelco AdBlue[®] is a stable, colourless, non-flammable and non-toxic fluid that is manufactured under strict ISO 22241 guidelines, combining high quality automotive grade urea and pure demineralised water.

FEATURES & BENEFITS

- Suitable for use in all GM and non-GM SCR-equipped diesel vehicles and equipment
- Stable, colourless, non-toxic and non-flammable formula for safe and easy handling
- Manufactured under ISO 22241 guidelines
- Contains no chemical additives or other compounds that could cause SCR system failure
- Manufactured using high purity synthetic urea

SPECIFICATIONS

ACDelco AdBlue[®] meets ISO 22241 specifications for quality and composition.

DOSAGE RATE

Check your owner's manual for proper usage in your vehicle.
Most OEMs estimate usage will be 2-3% of diesel fuel consumption.

STORAGE & HANDLING

The shelf life of ACDelco AdBlue® directly relates to the temperature at which the product is stored. ACDelco recommends storing AdBlue® in a cool, dry and well-ventilated area out of direct sunlight. Provided the product is stored below 25°C, the minimum shelf life is 18 months. Prolonged transportation or storage above 25°C should be avoided. DEF conforming to ISO 22241 specifications will begin to crystallise and freeze at -11°C. Freezing does not harm the quality of the DEF solution, which, when thawed, will perform as required. DEF will, however, expand when frozen. To maintain the purity of ACDelco AdBlue® and not harm the SCR system, use only dedicated DEF equipment when handling, storing and dispensing DEF

HEALTH & SAFETY

Material Safety Data Sheets (MSDS) are available for download at www.acdelco.com.au. This product should not be used for purposes other than its intended use. If disposing of used product, take care to protect the environment.

AdBlue® is a registered trade mark of the Verband der Automobilindustrie e. V. (VDA)
