

Pressure/vacuum hand pump

New version with additional functions

Product	PIERBURG No.	Replacement for
Pressure/vacuum hand pump	4.07370.27 .0	4.07370.07.0

MS Motor Service International now offers a new version of the „Silverline“ pressure/vacuum hand pump:

- New: Measuring range up to +4 bar
- New: Rotating manometer
- New: More accessory parts

Procedure:

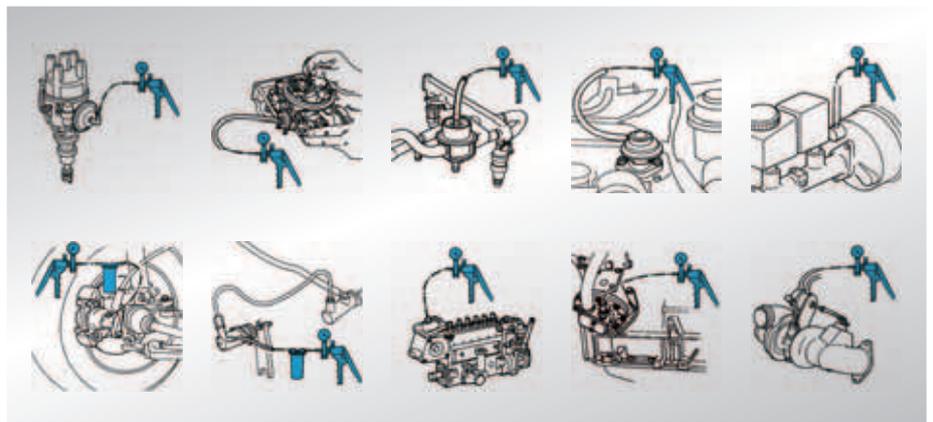

A pressure/vacuum hand pump can be used for conducting inspections and adjustments direct on the vehicle; practically anywhere engine-independent pressure / vacuum is needed.

Advantages:

- Operation is quick and simple using only one hand
- Versatile due to wide selection of accessories
- With its supplemental fluid reservoir it is also suitable for draining liquids
- Can be completely dismantled
- Sturdy metal version
- In practical storage case
- Indicator scale: -1 to +4 bar
- Switch between pressure or vacuum operation

Applications
