

# New individual packs

In future, Motor Service will supply individual packs for:

## KS piston ring sets

- The new individual packs contain one piston ring set for 1 cylinder / 1 piston.
- There are no motor ring sets.
- Because of the numbering system, there are new item numbers for the individual pack.

## Overview of numbering system for KS piston ring sets

**80 00006 1 1 000**

<b>2-digit code defining the commodity group</b>  always 80 for ring sets	<b>5-digit number per ring set family</b>  Part families for the same application are immediately recognisable	<b>Packing unit: Qty. of ring sets per box</b>  1 = individual ring set 2 = motor ring set — with 2 sets per box — 4 = motor ring set — with 4 sets per box — 6 = motor ring set — with 6 sets per box — 8 = motor ring set — with 8 sets per box —	<b>Version</b>  This number indicates a different technical version for the same application	<b>3-digit indication of size grade</b>  000 (=STD*) 025 050 075 100 Oversize in 1/100 mm  * standard diameter
---	--	---	--	---

### Example

Your order previously  
**1 x 80 00006 4 0 000**

Your order in future  
**4 x 80 00006 1 0 000**

## In future, Motor Service will supply individual packs for:

### Pistons, cylinder liners, kit sets

- For these products only individual packs are now available, multi-packs for motor kits have been discontinued.
- The item numbers remain unchanged.

**NEW: 4 x 1**
**Old: 1 x 4**

### The advantages of the new individual packs

- Practical, market-oriented packing unit.
- You no longer have to open the multi-pack to remove individual products. No repackaging necessary for retail.
- Maximum product protection of original packaging has been retained.
- Individual pack with original label ensures product can be clearly identified by the end user.
- Safety features of the original KS packaging have been retained: Label/Security Seal remain intact and provide protection against counterfeiting all the way to the end user.
- All end users can track the product origin by checking the 2D matrix code on the label online.
