

APEC WATER PUMP AWP1418

The Apec Water Pump (part number AWP1418) does not require the cable that is connected to the original pump. Apec supplies an electronic switch that must be installed on that cable. **If this operation is not carried out the control unit will indicate an error.**

1. IDENTIFICATION SWITCH

OE Water Pump

Apec Water Pump + Switch

2. ASSEMBLY STEP-BY-STEP

1. Disconnect the electric switch of the original water pump.
2. Connect the cable to the supplied switch, as shown in picture.
3. To avoid switch displacement, fix it to the pipe with a zip tie.
