

AUTO CYLINDERS

ISU2123- CSC 22.22MM
ISUZU KB250/ KB300
2004-2013

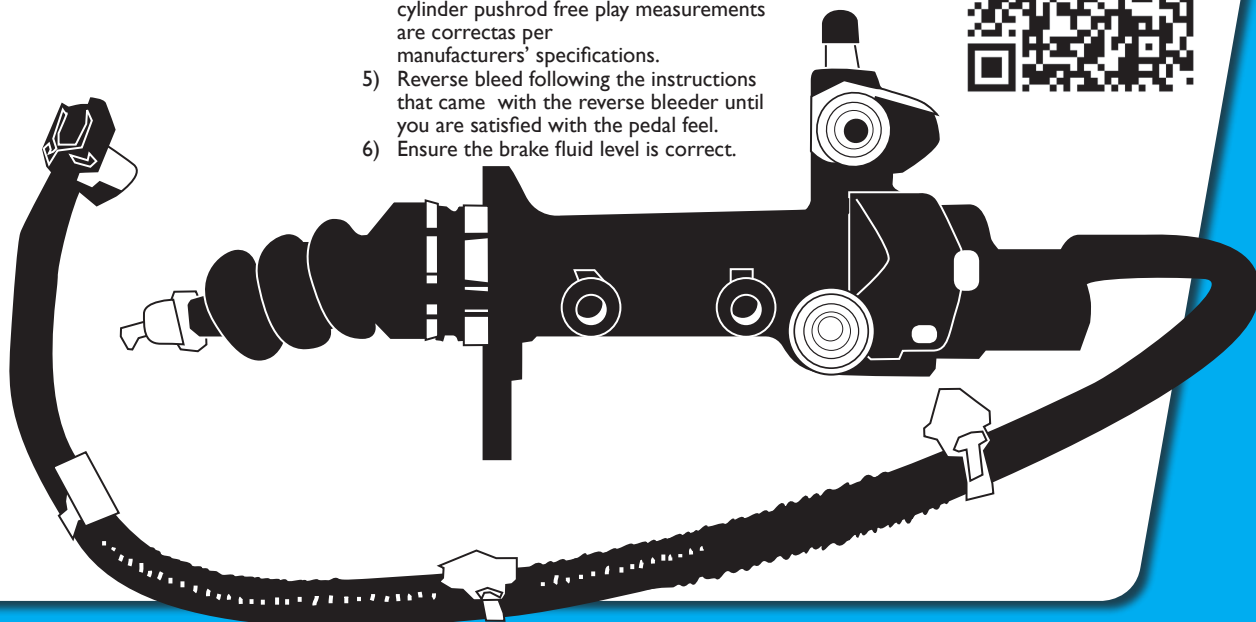

FITMENT INSTRUCTIONS FOR ISU2123

**PLEASE NOTE: NO CREDITS WILL
BE ENTERTAINED FOR INCORRECT
FITMENT AND BLEEDING.**

- 1) Replace electronic switch from old cylinder to new
- 2) Conventional bleeding of your clutch will not work due to the feed pipe and nipple being so close.
- 3) Reverse bleeding is required; therefore a reverse bleeder is mandatory.
- 4) Ensure clutch pedal height and master cylinder pushrod free play measurements are correct as per manufacturers' specifications.
- 5) Reverse bleed following the instructions that came with the reverse bleeder until you are satisfied with the pedal feel.
- 6) Ensure the brake fluid level is correct.

**FOR FURTHER ASSISTANCE ON
HOW TO BLEED THE CLUTCH
