

GAS SUCTION ON RAIL - 1 CART 8M

Reference : AG 0042

Item name GAS SUCTION ON RAIL - 1 CART 8M

EAN code 3701555301310

Intro Specially designed to work on different workshop stations.

Text The rail is produced with a modular aluminum extruded profile equipped with an easy to install double rubber lip and extraordinary wear resistance. The rail is equipped with two sliding tracks outside the suction chamber to maintain the sliding elements over time. The lightness combined with the rigid structure of the profile facilitates the installation and guarantees optimal results for an easy extraction of the exhaust gases. The equipment allows to work in a healthy environment without inhalation of exhaust gases and in compliance with occupational safety standards.

Product highlight Maneuverability

Specifications Specifications:

- length 8m
- galvanized steel structure
- epoxy paint (grey RAL 7040)
- 7.5m of Ø100mm pipe (-40° to +200°) made of high temperature EPDM vulcanized fabric on both sides
- delivery: Ø 160mm
- power supply: 400V Tri
- motor power: 1,0cv, 0.75KW, 50HZ, 1.7A
- max flow: 450m³/h
- noise level: 68dB

- thermal protection switch
- exhaust nozzle equipped with an anti-intrusion grid, a vice grip, a gas suction shutter and an access for the opacimeter probe

Many options available, please consult us.

Warranty period	2 years
Vehicle type	LV
Decibel level	68.00 dB
Tension	400V
Cable length	7.50 m
Diameter	100.00 mm
Air flow rate	450
Tariff code	Tariff Equipment (TE)
