

13 BLOCK DRAIN PLUGS KIT

Reference : HU 2019

Item name	13 BLOCK DRAIN PLUGS KIT
EAN code	3700461415746
Text	These plugs eliminate the problem of damaged oil sumps being tapped, as they replace the original plug without any other intervention. The thread pitch is the same as the original one, but with a larger thread diameter. Using these drain plugs does not require the thread to be restored, they should be directly mounted. Each plug includes a second plug. Once mounted, the first plug is let on the oil tank while the other plug will be used for the next draining.
