| <b>Text</b>               | <p>This socket is specifically designed for use on hybrid and/or electric vehicles. In order to guarantee an optimal comfort of use, the insulation around the socket is as thin as possible while guaranteeing a good grip and a good adhesion with gloves.</p> <p>The double layer of insulation in two different colors makes it possible to identify at a glance if the insulation (orange color) is damaged and therefore rendered unusable.</p> <p>This socket is electrically insulated, tested to 10000 V and approved to 1000 V AC.</p> |
