

MECHANICAL & HYDRAULIC CV JOINT PUSHER 10T

Reference : OH 0569

Item name	MECHANICAL & HYDRAULIC CV JOINT PUSHER 10T
EAN code	3700461400872
Intro	Multi-solution case for cardan joint, ideal for the extraction of an element linked to the undercarriage and the braking system.
Text	With the help of accessories to pull the flange to operate it with the inertia mass the 10 ton hydraulic cylinder is adapted to meet the highest requirements. Allows the following operations to be carried out: - checking or replacement of wheel bearings - intervention on transmission, bellows of the homokinetic joint, repair of rear brake shoes, rear drum control,...) These important and regular interventions consume time and energy, but with this hydraulic wheel hub puller, you can achieve twice as much with half the effort, making work safer.
Product highlight	Effortless operation
Contents	Contents: - hydraulic cylinder capacity of 10 tons - traction screw - inertia mass 4.5Kg
Applications	Applications: VW, Audi, Seat, Skoda, Opel, Volvo, Fiat, Renault, Peugeot, Citroën

For four or five-bolt hubs
