

1/2" WHEEL INTERVENTION SOCKET SET (10 PCS)

Reference : OM 7027

Item name	1/2" WHEEL INTERVENTION SOCKET SET (10 PCS)
EAN code	3700461409912
Text	The specific 18.5 to 21.5mm loosening sockets can be used on the chromed covers which would not have been removed during a previous disassembly and thus damaged or matted on the wheel nut. Similarly, the 17-19 and 21mm helical sockets are necessary when the wheel nuts are badly damaged and cannot be loosened with a conventional hexagon. Finally, during reassembly, the anodized and protected 17-19 and 21mm sockets will allow you to tighten your wheel to the desired torque without risk of marking the rim.
