

PNEUMATIC INJECTOR PULLER

Reference : OP 9110

Item name	PNEUMATIC INJECTOR PULLER
EAN code	3701555312118
Text	This device has been specifically designed to remove the most intractable injectors from common-rail diesel engines. Thanks to its pneumatic cylinder, all you have to do is assemble and secure it to the injector. Extract and let it do the work. Designed for hammering up and down at high speed to remove jammed or seized injectors. Tool requires a regulated working pressure of 5 - 8 Bar (<100L/min). Suitable for : Bosch, CAT, Cummins, Denso and many others.
Specifications	Specifications: - max. cylinder height: 150mm - min. cylinder height: 135mm - overall hose length: 780mm - regulated working pressure from 5 - 8 Bar (<100L/min)
