## EMKA GDI Injector Cleaner

Gasoline system cleaner for LPG-powered engines

### 1. APPLICATION

EMKA GDI Injector Cleaner is specifically designed to clean the entire combustion system for liquefied petroleum gas (LPG) engines. It effectively cleans and reliably removes all operational contaminants and deposits. It keeps the system clean and protects the valves from wear and corrosion. The cleaner ensures clean, powerful combustion and thus efficient engine operation, which in turn has a positive effect on engine performance and fuel consumption.

Application:

- 1) Pour into the fuel tank every 3 months before refueling.
- 2) The product works while driving.

One can is sufficient for 60 liters of fuel.

For larger amounts, add 0.5% of the tank volume.

Especially recommended for deposit-related cold-start problems, poor exhaust emissions, and increased fuel consumption.

### 2. YOUR BENEFIT

- Easy to use.
- Works while driving.
- Suitable for all gas-powered gasoline engines.
- Positively affects engine performance and fuel consumption.

**Can be used with:**

- For use in all LPG-powered gasoline engines.  
Miscible with all types of gasoline.

### 3. PACKAGING

CONTENTS	ART.NO.
12 x 300ml can	8920004
