

DESCRIPTION

EMKA Radiator Sealant

Cooling system sealant

1. APPLICATION

Emka Radiator Sealant is a cooling system sealant used in all water-cooled and closed cooling systems in commercial vehicles, cars, and off-highway machinery. It reliably and quickly seals minor leaks and critical hairline cracks. The can contents are sufficient for cooling systems with a capacity of up to 12 liters.

Use:

- 1) Check the coolant level and adjust if necessary.
- 2) Add the contents of the can to the warm cooling system, opening any heater valves if necessary.
- 3) Let the engine run for at least 10 minutes.
- 4) Check the coolant level and tightness again.

CAUTION: Open the cap slowly > Risk of burns! Do not overdose!

2. YOUR BENEFIT

- Works while driving.
- Prevents coolant loss and protects against engine damage.
- Suitable for all water-cooled, closed cooling systems.

Can be used with:

- Compatible with all water-cooled, closed cooling systems.
