EMKA AdBlue®

High-Purity urea solution according to ISO 22241

1. APPLICATION

EMKA AdBlue® is a high-purity urea solution and acts as a NOx reducing agent for diesel engines with SCR catalysts to meet the EURO 4, 5, and 6 emissions standards according to AUS 32 (CEFIC) and ISO 22241.

Caution! Do not fill into the vehicle's fuel tank or any other fluid container, but only into the designated and separate AdBlue tank! Recommended storage temperature: between 0°C and +30°C (freezing point -11°C, can be reused after thawing!). The product has a shelf life of 1 year when stored properly.

2. TECHNICAL SPECIFICATIONS

Can be used with:

According to AUS 32 according to ISO 22241, suitable for use in:

- Cars/SUVs;
- Light commercial vehicles;
- Trucks/Buses;
- Agricultural vehicles;
- Construction-, mining- and material handling mashinery;
